Rhino 3D

**B E G I N N E R S
R H I N O 3 D
J E W E L L E R Y**

6 - 9pm

Hungry Creek is an authorised Rhino Training centre. Learn to use this industry standard CAD program to design jewellery and prepare for printing the final 3D model using Rapid Prototyping. This course has been designed by jewellers for jewellers. We believe that you can also attend this course if you wish to learn how to use the software, and apply it in your own circumstances. Computers and software supplied for the duration of the course.

**I N T E R M E D I A T E
R H I N O 3 D
J E W E L L E R Y**

6 - 9pm

This course continues where the beginners finishes. It will introduce advanced curve, surface and solid modelling techniques used in the design and production of jewellery. Students will develop an understanding of how to design complex rings, pendants and earrings. The use of plugins will be discussed as well as an introduction to parametric design using the Grasshopper plugin.
